After a trial of five years, I have satisfied myself that irreparable injury is done the corn by pulling off the suckers. I think that in consequence of the wounds inflicted upon the growing plant, the crops of fodder and corn are both greatly diminished. I will cite one year's experience, 1840. My corn was planted four and a half by a subject to the examination of all persons interested by the propriete to said Court unless exceptions thereto be filed.

Purple or livid spots appeared on the skin, attended with violent pain of the head; the symptoms being alarming, a physician was called who prescribed blistering and leeching, which produced partial relief. Hard bony lumps formed under the skin on various parts of the body, and the Doctor pronounced my complaint hereditary Scrofula now for the first time developed. The following winter my light failed in both eyes, medical aid was again resor agnit failed in both eyes, medical and was again resort-ed to, which relieved my sight during the summer, my nose now began to increase in size and the whole body rapidly enlarged with a dropsical swelling. The nose even grew very sore and discharged most profusely the most lonthsome substance. My whole system was involved in disease, the lumps softened and discharged October, when I was suddenly seized with an indescri-bable sensation which rendered me nearly unconscious, and my friends supposed it was the will of kind Providence to rid me of my sufferings, but from this I recovered only to suffer on; the ulcers had become one con-

It was in this condition I commenced the use of your invaluable Sarsaparilla, which I was induced from the many remarkable cures I saw published.—
It came to me as some guardian angel and I can scarcely tell why, yet from the moment I heard it mentioned
I was impressed fully with the belief that this was to be

After using it a few days my pains grew easier, the swelling of the body and the limbs went down, the ulcers commenced healing, and I rested well. After suffering every thing but the pains of death, how happy am I and how grateful to I feel to be able to add another testimonial to the efficacy of
